Vivabox gifts!

As you're considering what great gift ideas to pursue this holiday and Christmas season, perhaps you might consider this delightful gift we've come to learn about. It's called a **vivabox**, and it's one of the closest things we've come across that can be considered "a gift that keeps on giving."

What is a vivabox? Well, when you order a vivabox, your gift recipient receives a nicely packaged box that is the beginning of an exciting gift experience. As an example, let's take the **vivabox tea time experience**, which is shown above. When you order a tea time vivabox, priced at \$45, your gift recipient will receive this initial box shown above. Inside are seven different types of tea your gift recipient can sample. Teas in this set include aged earl grey tea, white rose, ruby chai herbal rooibos, and Monkey King jasmine green tea.

But that's just the start of the experience. In addition to the tea already included in this box, the vivabox adds a surprise! Your gift recipient can now choose one out of five choices for an additional gift!

Once your gift recipient selects one of these, it is then shipped to them. See the fun offered in this experience of choice?

Vivabox also has coffee and wine gift boxes:

The wine vivabox ends up delivering six bottles of premium wine! This is a great

The coffee vivabox includes some coffee grounds samplers and a bottle of Torani flavoring syrup! The gift recipient can then use a gift card to purchase more coffee!

There are also gourmet food, fragrances, and barbecue vivaboxes! What a great gift experience to give to someone. This would make an excellent Christmas gift, and there's the added bonus of an even larger gift the recipient gets to choose him or herself.

Order a vivabox at vivaboxusa.com!
